

ROX Rejuvenator Sealer

Introducing ROX Rejuvenator Sealer:

ROX Rejuvenator Sealer is a high-performance, two-component rejuvenation coating designed to restore the appearance and performance of worn resin bound

ROX Rejuvenator Sealer – Advantages

- **Simple 1:1 Mix Ratio**
Easy mixing reduces on-site errors and speeds up installation.
- **Restores Appearance**
Revives colour and sheen of faded resin bound surfaces.
- **Rebinds Loose Aggregate**
Penetrates the surface to strengthen and stabilise weakened areas.
- **Extends Surface Lifespan**
Reduces future aggregate loss and surface wear.
- **Seamless Finish**
Absorbs into the existing surface without altering texture or permeability.
- **Fast Application & Cure**
Minimises downtime and disruption.

S-uitable for New & Existing Installations

Ideal for maintenance, refurbishment, and post-installation protection.

Suitable Substrates

- Resin bound driveways
- Resin bound pathways and patios
- Commercial resin bound areas
- Worn or weathered resin bound surfaces

Surface Preparation Guide

Correct preparation is essential for maximum penetration and performance.

1. Surface Condition

Surface must be sound, stable, and structurally intact.

Any failed or delaminated areas should be repaired prior to application.

2. Cleaning

Thoroughly clean the surface using:

Pressure washing or mechanical brushing

A suitable resin bound cleaner or degreaser if required

Remove all: Dirt, algae, moss, and organic growth, Oil, grease, or contaminants

Allow the surface to dry completely before application.

3. Weather Conditions

Do not apply during rain or when rain is forecast.

Avoid application in cold or very humid conditions.

Ideal surface and ambient temperature: 5°C – 25°C

Application Guide

Apply using a roller,.

Work the material evenly across the surface, allowing it to soak in.

Avoid over-application or pooling.

Excess material should be spread out to ensure even absorption.

ROX Rejuvenator Sealer - Specification

Type	Two-Part Polyurethane Resin Sealer
Mix ratio	1:1
Pack Sizes	10KG
Colour	Clear
Shelf Life & Storage	12 months in original, unopened container. Store in cool, dry conditions
